

Do not take away Wisconsin's strong Do Not Call Laws. The strongest in the nation for consumers, federal rules are weaker and will put many consumers at risk of fraud. Telemarketers target the elderly and homebound, making it easier for them to circumvent WI law would be a mistake. We finally have some peace at my home - don't take that away. Wisconsin has the right to govern itself and your action to prevent our laws is NOT WANTED. Last year WI banks saw profit of over \$4 billion - they don't need a way to make more money. Please contact me with any questions.
